WILLIAM "GAVIN" **LACALLE**

https://voluntaddelacalle.github.io/· Gavin.Lacalle@gmail.com

EDUCATION

BS COMPUTER SCIENCE, SOUTHERN ARKANSAS UNIVERSITY

May 2021

- GPA: 3.95, Graduated with Honors College

WORK EXPERIENCE

UNREAL ENGINEER, HTX LABS

EMPACT III | Various teams of 4 - 12 | 2024-PRESENT:

- Working as a software engineer on an AI-enabled, cloud-based, immersive training platform in the Unreal Engine. It operates in VR, as well as Non-VR on Desktop and Tablet.
- Worked on Video Player, Notifications, xAPI, and Save Systems in Unreal Engine 5.
- Tools used: C++, Unreal Engine 5, Rider 64, Perforce, Photopea, Gimp, OBS, ChatGPT, OpenCode

SOFTWARE ENGINEER, GAMIGO US

Trove [Available on Steam] | Team of 8 | 2022-2024:

- Worked as a software engineer on a voxel style MMO. Fixed bugs, worked with UI, tweaked old game mechanics, and made new game mechanics on both client and server sided code.
- Tools used: C++, Flash/ActionScript 3, Perforce (P4), Photopea, Gimp, ChaptGPT

PROGRAMMING CONTRACTOR, CYCLE SQUID STUDIOS

Rummage | Team of 5 | Awarded First Place for Indie/Professional at CSGC 2022 | 2021-2022:

- Worked as a programming contractor on a game where the player builds and customizes his tools to explore the game world and solve puzzles.
- Worked on the procedural crafting system, save system, quest system, and player controller.
- Tools used: C#, Unity, Git, Shader Graph, HLSL

PROJECTS

INDIE GAME DEVELOPMENT, EZ STREET STUDIOS

Blindside | Team of 2 | 2023 - 2025:

- Implemented animations, movement, and an equipment/weapon system for the player, working on both client and server sided code as a gameplay engineer in Unreal Engine 5.
- Tools used: C++, Unreal Engine 5, Git, Photopea, OBS, ChatGPT

GAME PROGRAMMING, SOUTHERN ARKANSAS UNIVERSITY

Bomb Voyage [Available on Steam] | Team of 20 | 2020-2021:

- Took the role of Lead Programmer for this game where 4 players must outrun and outwit each other and hold onto an object for the longest amount of time. Worked on character controllers for players and AI.
- Tools used: C#, Unity, Git

SKILLS

Unreal Engine 5 & Blueprints, Unity, Git, Perforce, C#, C++, Java, Python, Lua, Data Structures, Algorithms, HTML5, CSS3, JavaScript, NodeJS, PHP, MySQL, OpenGL, HLSL, Shader Graph, Networking, Windows App Development, IMGui, Serialization, ScyllaDB, Photopea, Gimp, OBS, ChatGPT, OpenCode
